## DETAILED ACTION

### *Election/Restrictions*

Claims 2-27, 29-32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 20, 2002.

### *Information Disclosure Statement*

1. The information disclosure statement filed 7/6/99 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. **The mere citation of a web address is not a publication that can be considered by the examiner. Dated printouts from the web address or dated publications relating to the content of the web address would be considered.**

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claims 1 and 28** are rejected under 35 U.S.C. 103(a) as being unpatentable over Hazy et al. (CA 2,122,116).

Regarding claim 1 and 28, Hazy et al. disclose a computer-implemented method of providing investment information to a computer user comprising the steps outlined above. However, Hazy et al. discloses that the criterion of interest is user-specified rather than being specified by a person other than the computer user. The examiner takes official notice of the fact that it is well known that trained and experienced investment professionals have, when compared to the knowledge level of the average amateur investors, a superior knowledge on the average of which particular investment performance criterion or indicators to watch for a particular portfolio. It would thus have been obvious, to one of ordinary skill in the art at the time that the invention was made, to have the criterion of interest in the Hazy et al. method, be selected by an investment professional rather than the computer user, such a modification utilizing the superior knowledge of an investment professional and returning better yields to the customer over the long haul.

#### ***Response to Arguments***

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

If applicant does not traverse the examiner's assertion of official notice the common knowledge or well-known in the art statement is taken to be admitted prior art because applicant failed to traverse the examiner's assertion of official notice.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
